Teltronics headquarters relocates to Gulf Coast Corporate Park in north Manatee County

Bradenton, FL -- [Teltronics Inc.](#) (OTCBB: TELT), which provides communications products and services, today announced the relocation of its headquarters to Gulf Coast Corporate Park in north Manatee County, according to Eric Basinger, executive director of the [Economic Development Council](#) (EDC), a division of the Manatee Chamber of Commerce. A portion of Teltronics' operations will continue temporarily in the company's previous location in south Manatee County.

Teltronics designs, develops and manufactures electronic equipment and applications software systems that enhance the performance of communications networks. The new headquarters facility includes 21,520 sq. ft. of office space and 30,000 sq. ft. of manufacturing space. Manufacturing at the new facility is scheduled to begin the first quarter of 2010. The company has 114 employees in Manatee County and 188 worldwide, according to Ewen Cameron, Teltronics CEO.

"Located near the I-75 and I-275 interchange, the new location will vastly improve company visibility and attract personnel in the Tampa Bay, Sarasota/Bradenton and surrounding areas," Cameron said. "After 27 years at the previous location, we are pleased to find an outstanding, new facility to proudly showcase our company and products to worldwide clients, partners, potential business associates and the community. At the same time, we are creating an environment that reflects the future of our business."

"Part of having a strong existing industry program is being able to assist companies like Teltronics when they undertake a major effort, such as a corporate move, which triggered the permitting assistance program," Basinger said. "If we are going to create a more diverse economy in Manatee County, we must concentrate not only on attracting new targeted businesses, but also on retention and expansion of our existing businesses, such as Teltronics."

"The Manatee Economic Development Council helped make the move to Palmetto a smooth transition by serving as the liaison between Teltronics and county personnel," Cameron said. "The swift decision to relocate would not have come to fruition had it not been for the assistance of staff in the county's building department and economic development department. We are pleased to continue to call Manatee County home to the Teltronics headquarters."

"Expediting Teltronics' relocation in cooperation with the EDC exemplified the 'business friendly' climate we want to promote in Manatee County," said Ed Hunzeker, Manatee County administrator. "Retaining and growing good jobs in Manatee County is a high priority."
